PROFILE

Highly motivated and detail-oriented frontend developer with a strong passion for building scalable and user-friendly applications. Self-taught expertise in HTML, CSS, JavaScript, and React, with a proven track record of successfully delivering complex projects. With a strong understanding of responsive design and cross-browser compatibility, I am committed to continuous learning and growth in frontend development. I thrive in collaborative environments and am eager to bring my skills and enthusiasm to a dynamic team

WORK EXPERIENCE

Frontend Developer

WEATHER APPLICATION

2023-now

- API Integration: Integrated weather API to fetch real-time weather data.
- JavaScript: Used JavaScript to implement app functionality, including geolocation and weather data retrieval.
- HTML/CSS: Utilized HTML and CSS to design and structure the app's user interface.
- Frontend Development: Demonstrated expertise in frontend development, creating a responsive and interactive user experience.
- Geolocation: Implemented geolocation functionality to provide location-based weather information.
- Code Optimization: Optimized code for performance, showcasing ability to write efficient and effective code.
- Weather API: Utilized a weather API to fetch real-time weather data.
- Frontend Frameworks/Libraries: May have used frontend frameworks or libraries like React, Angular, or Vue.js (depending on your implementation).

FRONTEND DEVELOPER

AMAZON WEBSITE CLONE

2023-2024

- Built a fully functional e-commerce platform, replicating Amazon's core features, using frontend development skills (HTML, CSS, JavaScript).
- Implemented user authentication and authorization, allowing users to create accounts, log in, and manage profiles.
- Developed a product management system, enabling users to browse, search, and purchase products, using backend development skills (server-side programming, database management).
- Integrated a shopping cart feature, allowing users to add, remove, and manage products.
- Implemented a payment gateway, enabling users to securely checkout and complete purchases.
- Designed a responsive and mobile-friendly interface, ensuring a seamless user experience across devices.
- Managed a database to store user information, product details, and order history, using database management skills (data modeling, data normalization).
- Demonstrated problem-solving skills through robust error handling, ensuring a smooth user experience and preventing data loss.

SELAELO LANGA

FRONTEND DEVELOPER

TO WHOM IT MAY CONCERN,

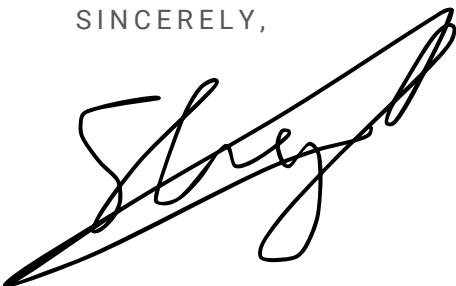

I'm excited to apply for the Frontend Developer position at the advertised company. With a passion for building scalable and user-friendly applications, I'm confident in my ability to contribute to your team's success.

As a self-taught frontend developer, I've honed my skills in HTML, CSS, JavaScript, and React, with a strong understanding of responsive design and cross-browser compatibility. My portfolio showcases my expertise in building complex projects, including a weather app, world clock, calculator app, and a fully functional Amazon website clone.

I thrive in collaborative environments and am eager to bring my skills and enthusiasm to a dynamic team. I'm committed to continuous learning and growth, ensuring I stay up-to-date with the latest frontend development trends and technologies.

Thank you for considering my application. I'd love the opportunity to discuss how my skills align with your team's goals.

SINCERELY,
